

CHOCOLATE CATALOGUE

PRODUCTS FEATURED
IN THIS CATALOGUE
PRESENT ONLY OUR
STANDART PRODUCT
PORTFOLIO. NEW
PRODUCTS CAN BE
CUSTOMIZED ACCORDING
TO OUR CLIENTS'
REQUIREMENTS.

Altınmarka's,

state-of-the-art production facilities, integrated quality guaranteed systems and sophisticated R&D capabilities have made Altınmarka a preferred solutions provider to the world's leading cocoa and chocolate brands in the food, pastry, ice cream, dairy, cake & biscuits and chocolate confectionary industries.

The company's production plants are located on the outskirts of Istanbul, Turkey, and include a cocoa processing facility (est. 1994) with an annual capacity of 160,000 tonnes/year and an industrial chocolate production facility (est. 2005) with an annual capacity of 140,000 tonnes/year. Altınmarka is the world's second largest industrial chocolate producer and 6th largest cocoa products producer.

Altınmarka's broad ranging quality guarantee system, which includes all relevant BRC, ISO 9001, ISO 22000 quality and food safety management systems, ISO 14001 environmental management system, OHSAS 18001 occupational health and safety management systems certifications, begins with the import of 'main crop', premium quality cocoa beans and continues throughout the entire chain of production, packaging, storage and logistics processes. This seamlessly integrated quality control system as well as strict global food safety and hygiene standards ensure top quality throughout all products.

Altınmarka offers its clients not only high-tech, high-capacity production capabilities, but also the wide-ranging experience and expertise of its team to support clients with fast, flexible and reliable production solutions. These include R&D services, recipe optimization, pilot production and customized product development - services that have made Altınmarka a trusted supplier and outsourcing partner to the world's leading global brands, and led to exports to over 80 countries worldwide.

Whatever your specific needs and requirements for cocoa or industrial chocolate products, our sales team will be happy to meet you for discussions and provide you with more detailed information about the full range of our products and services.

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses was plotted against the number of trials for each condition. The number of correct responses increased with the number of trials for all conditions. The number of correct responses was highest for the condition with the highest number of trials (10 trials) and lowest for the condition with the lowest number of trials (2 trials).
